Experience

AddMe

July 2024 – September 2024

Front-end Developer (ReactJS)

- Developed and optimized reusable components for the company's landing page.
- Integrated Puck, a page builder library, to enable drag-and-drop page creation.
- Created custom components for the page builder, enabling users to create their own layouts.

Redberry

November 2024 – March 2025

Full-stack Developer Intern (ReactJS + Laravel)

- Configured PHP and Composer on Ubuntu for Laravel projects.
- Developed and optimized RESTful APIs in Laravel to handle frontend requests efficiently.
- Worked with Blade template engine and built a project with it.
- Implemented authentication and authorization using Laravel Sanctum with SPA cookie-based authentication.
- Built reusable UI components from scratch, including Modal, Dropdown, Navigation, and Forms.
- Optimized API performance by improving database queries using Laravel's query builder.
- Implemented unit and feature tests using PHPUnit.
- Collaborated with the team using Git and GitHub for version control and code reviews.
- Deployed applications to VPS production server by configuring Nginx, PHP-FPM and PM2.

Education

Business and Technology University

2021 – 2025

Bachelor of Information technologies

Relevant Coursework: Python, Java, C#, Front-end Development, SQL, Software Testing.
